BEGA system pendant luminaires

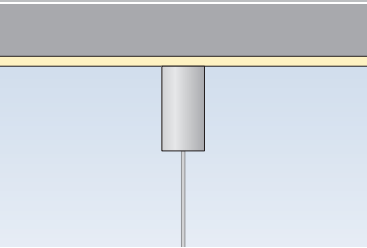

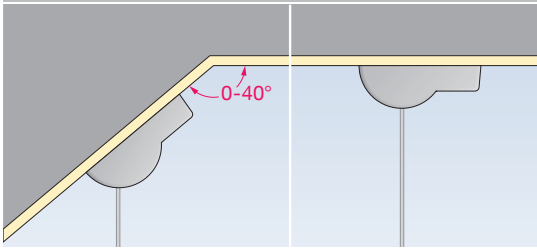

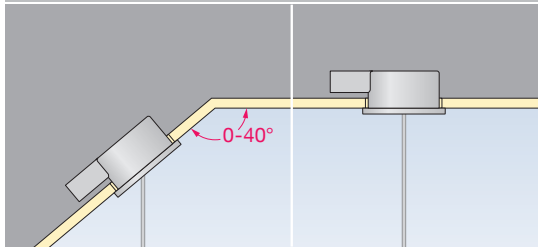

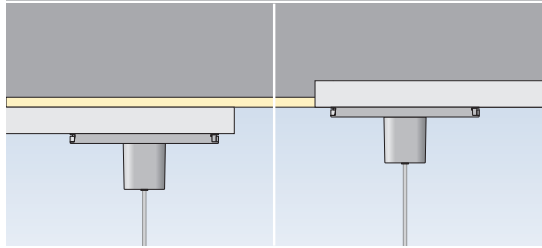

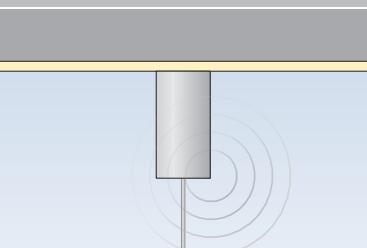

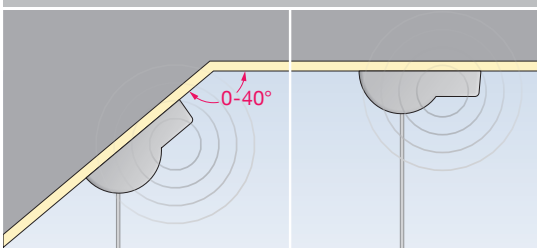

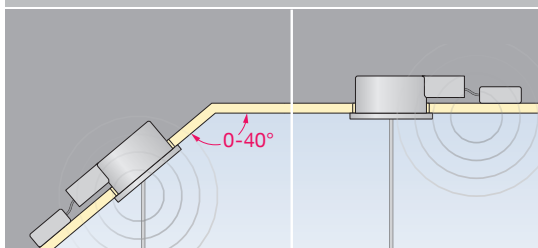

As a modular system, BEGA system pendant luminaires allow you to combine pendant luminaires with various installation components.

The suspension of a pendant luminaire and electrical connection to the existing ceiling are usually achieved by means of a so-called canopy. However, structural conditions often require pendant luminaires to be installed on different ceiling constructions.

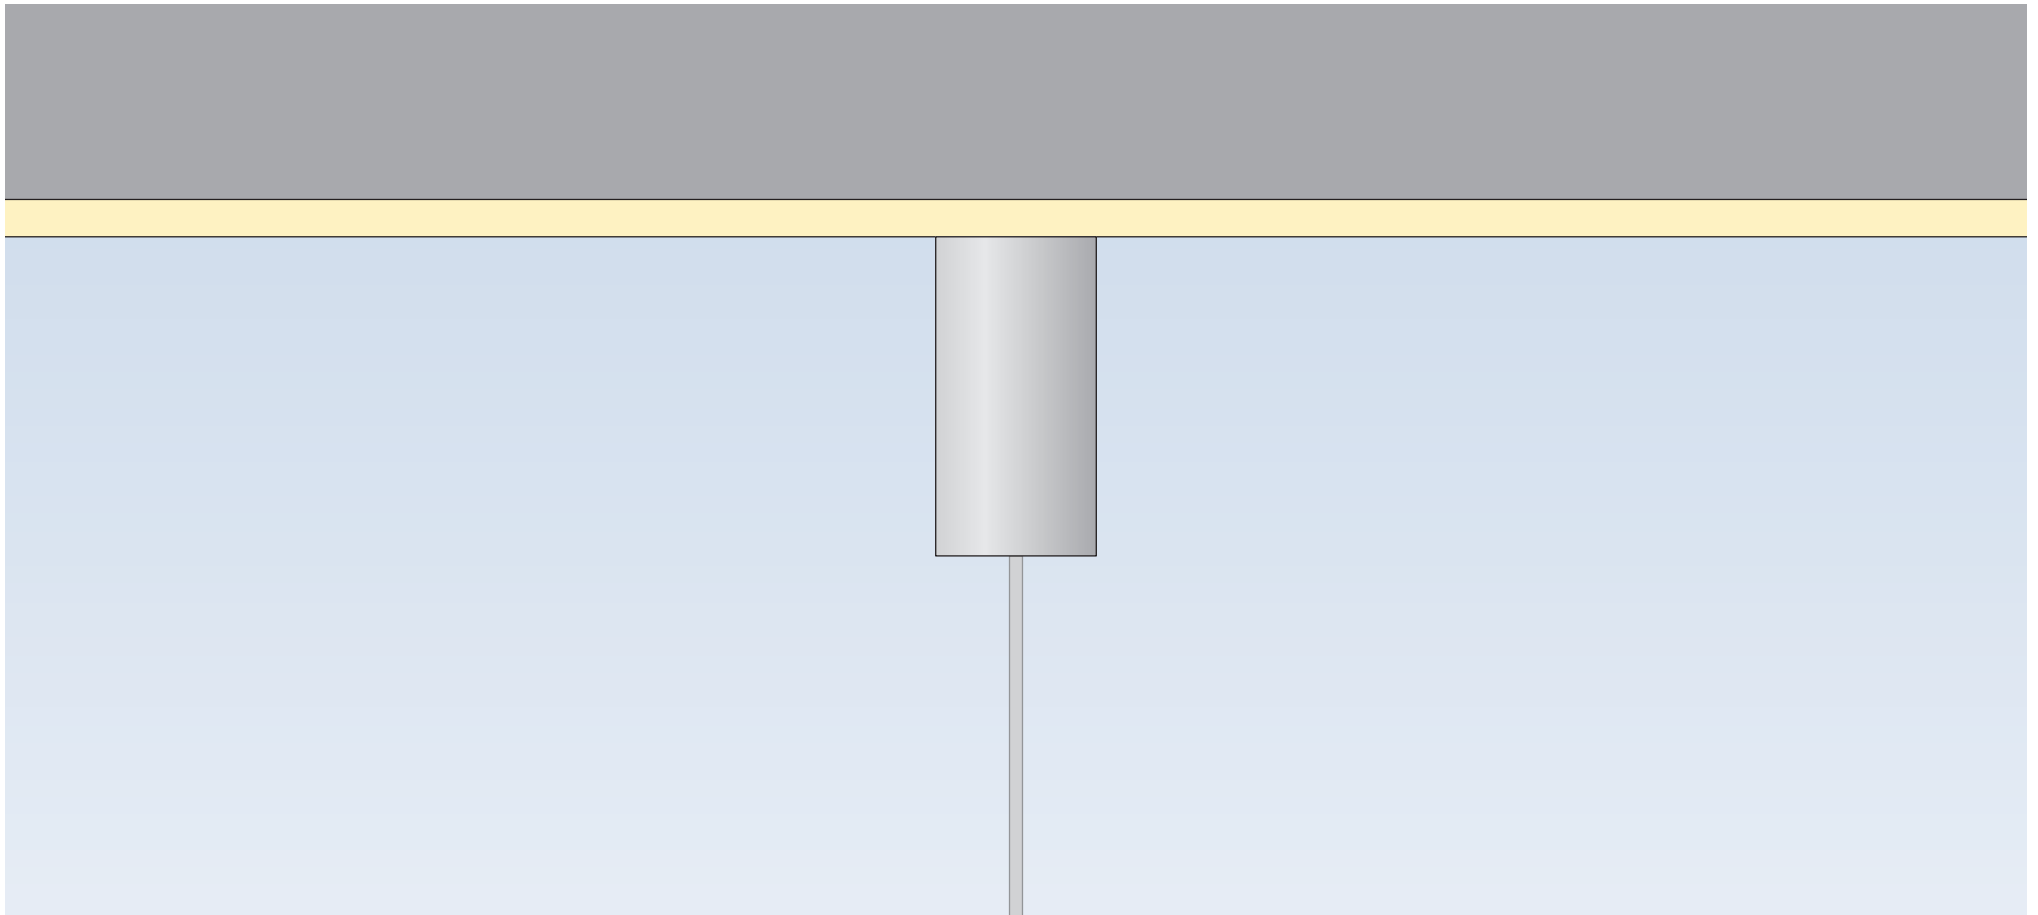

With BEGA system pendant luminaires, you simply order the installation components to match your selected system pendant luminaire for the desired type of installation.

Installation components

Type A  Surface-mounted canopy	Type B  Surface-mounted canopy	Type C  Recessed canopy	Type D 
Type AS   Surface-mounted canopy · Smart	Type BS   Surface-mounted canopy · Smart	Type CS   Recessed canopy · Smart	

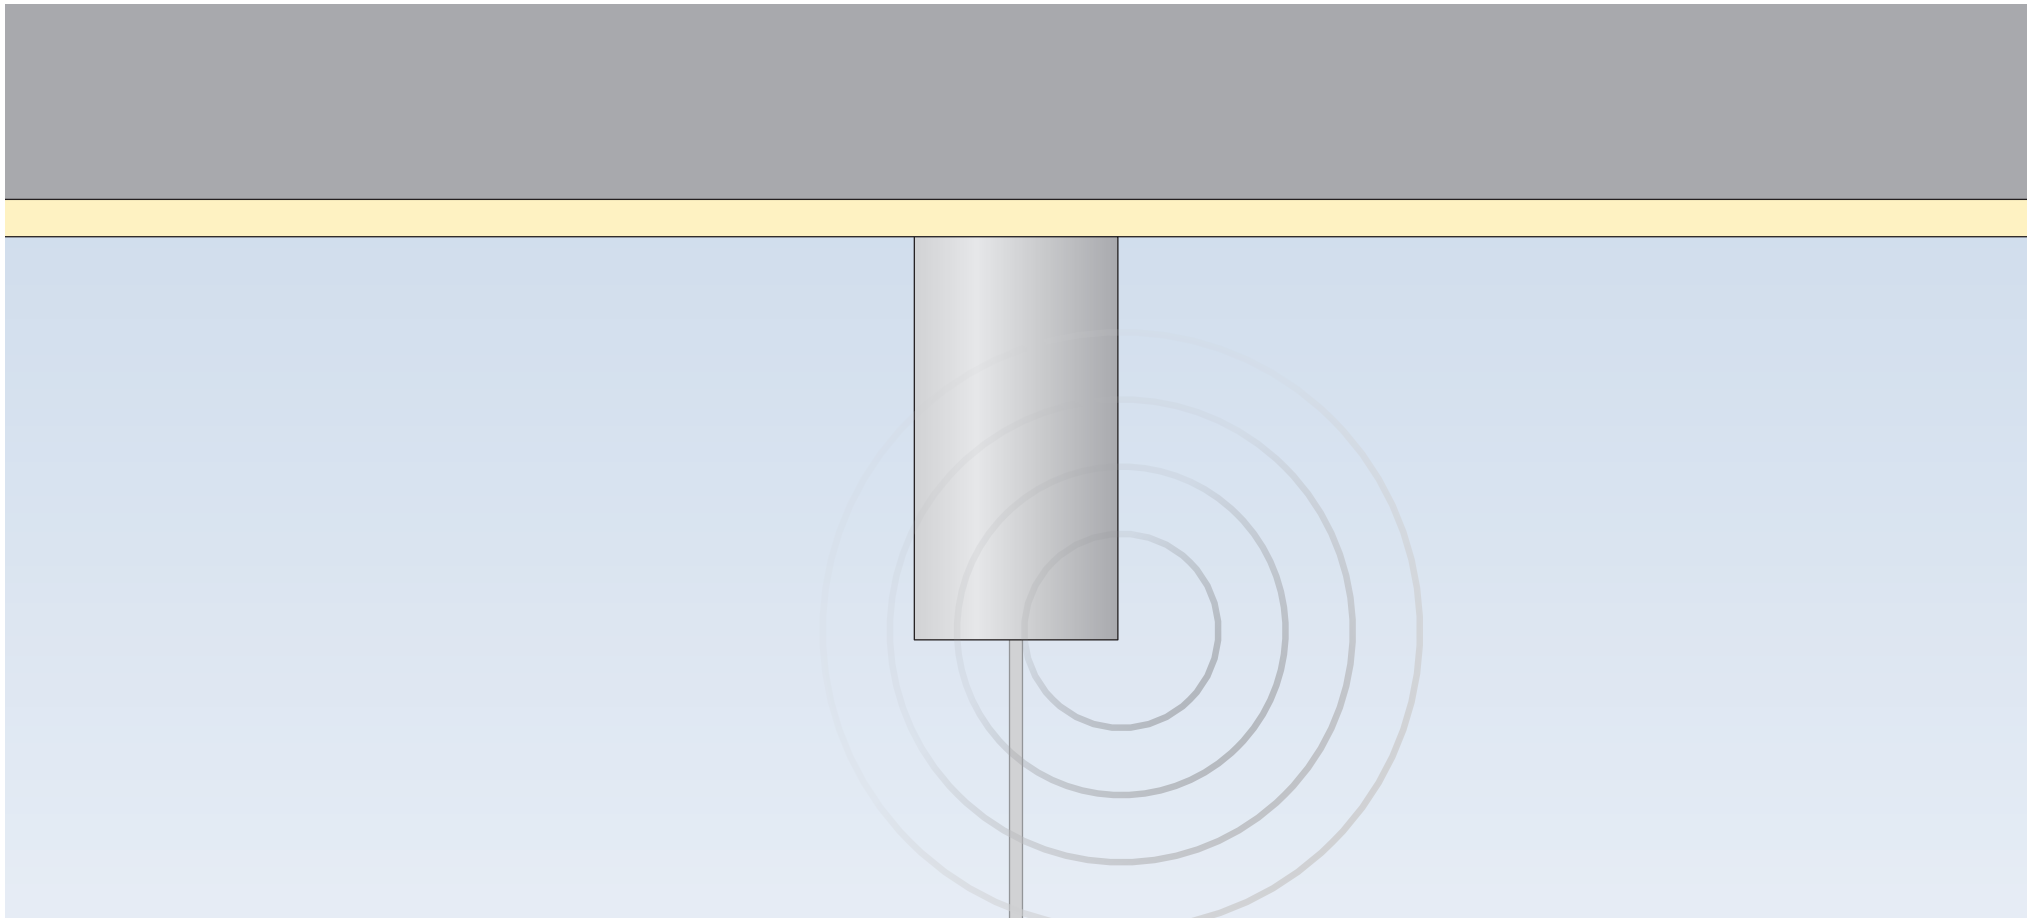

Type A

Surface-mounted canopy

For the electrical installation and mounting of a BEGA system pendant luminaire on any type of ceiling.

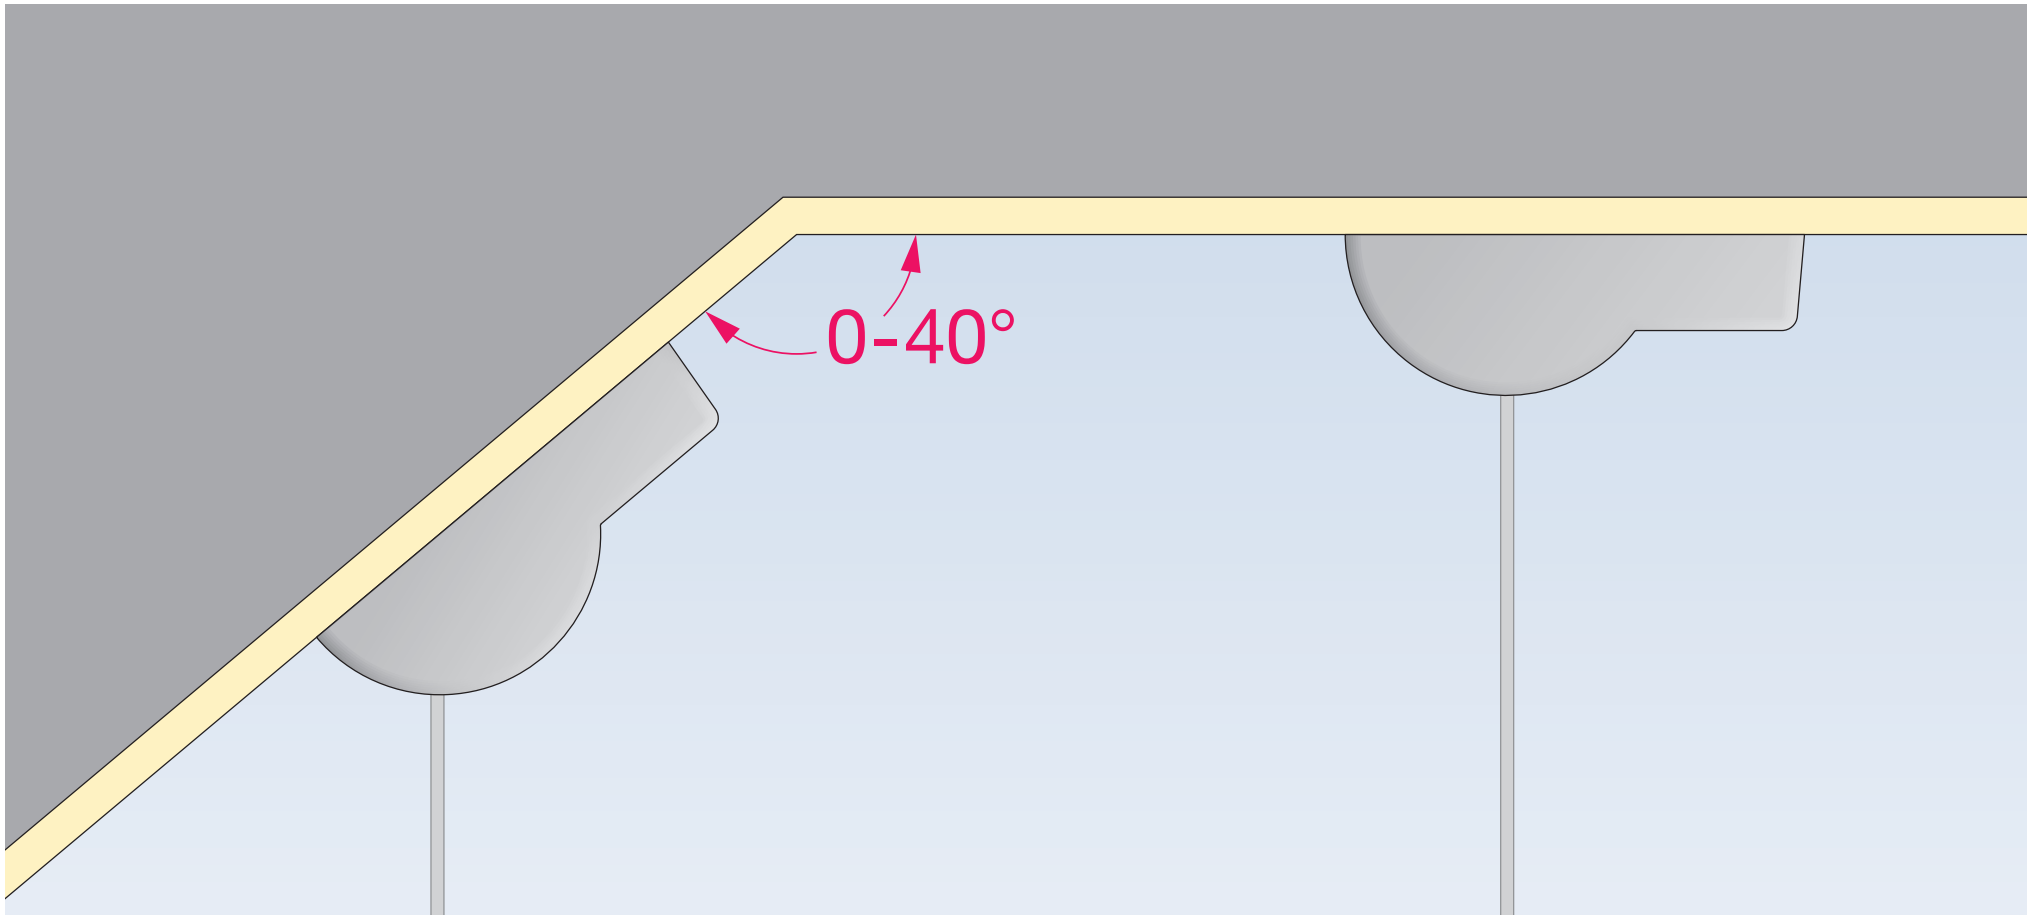

Type AS

Surface-mounted canopy · Smart

Identical in construction to type A, but with built-in Smart Controller for wireless control of the luminaire using BEGA Smart.

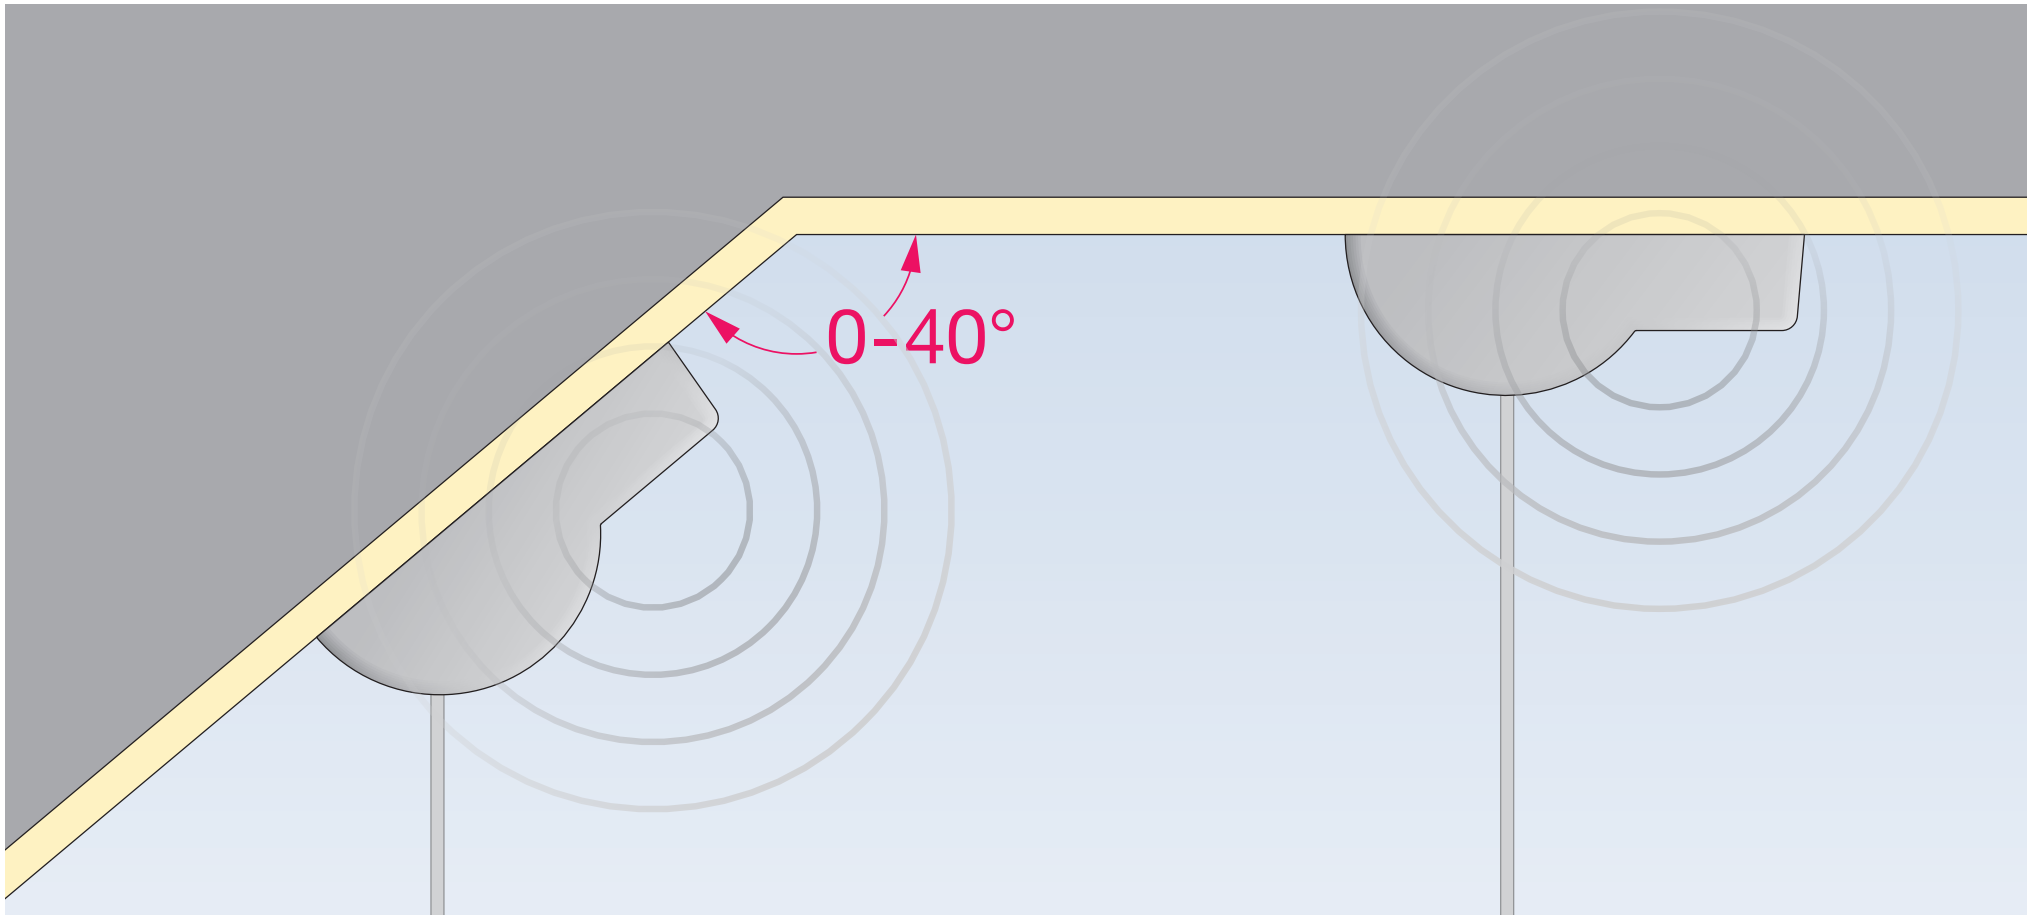

Type B

Surface-mounted canopy

For the mounting and electrical installation of a BEGA system pendant luminaire on any type of straight or sloped ceiling. Suitable for sloped ceilings with an inclination of 0–40°.

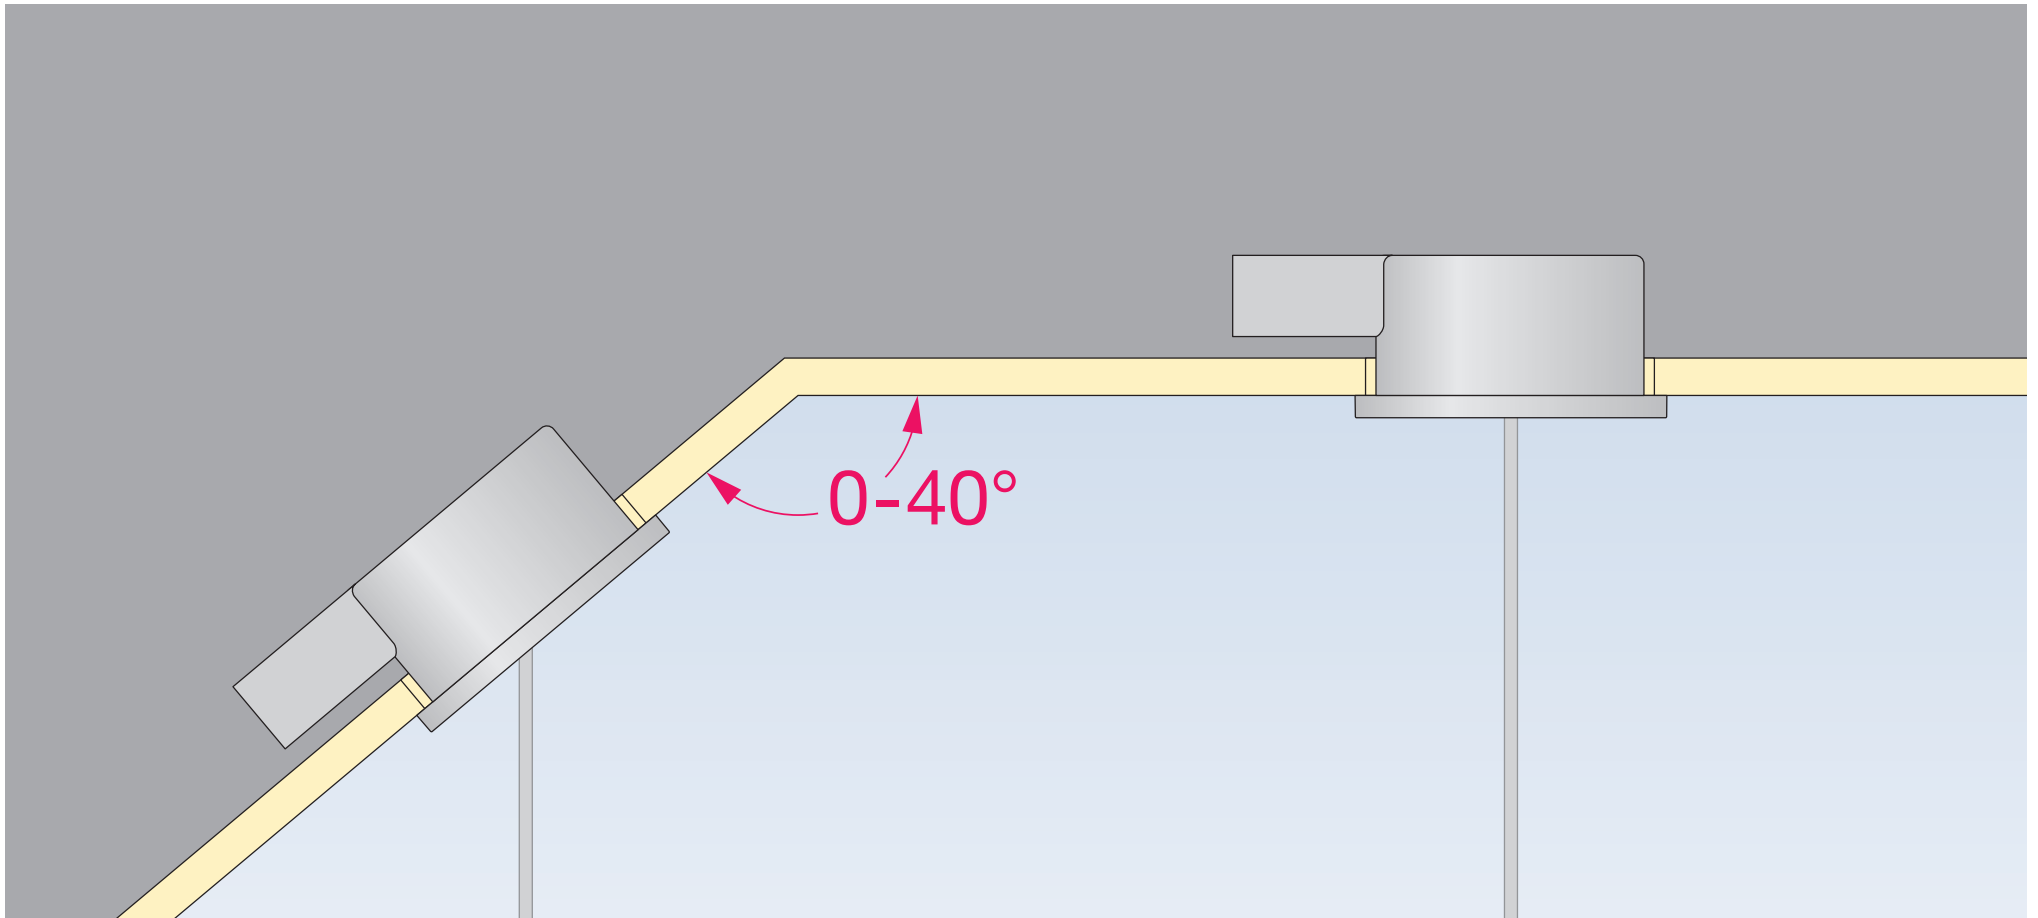

Type BS

Surface-mounted canopy · Smart

Identical in construction to type B, but with built-in Smart Controller for wireless control of the luminaire using BEGA Smart.

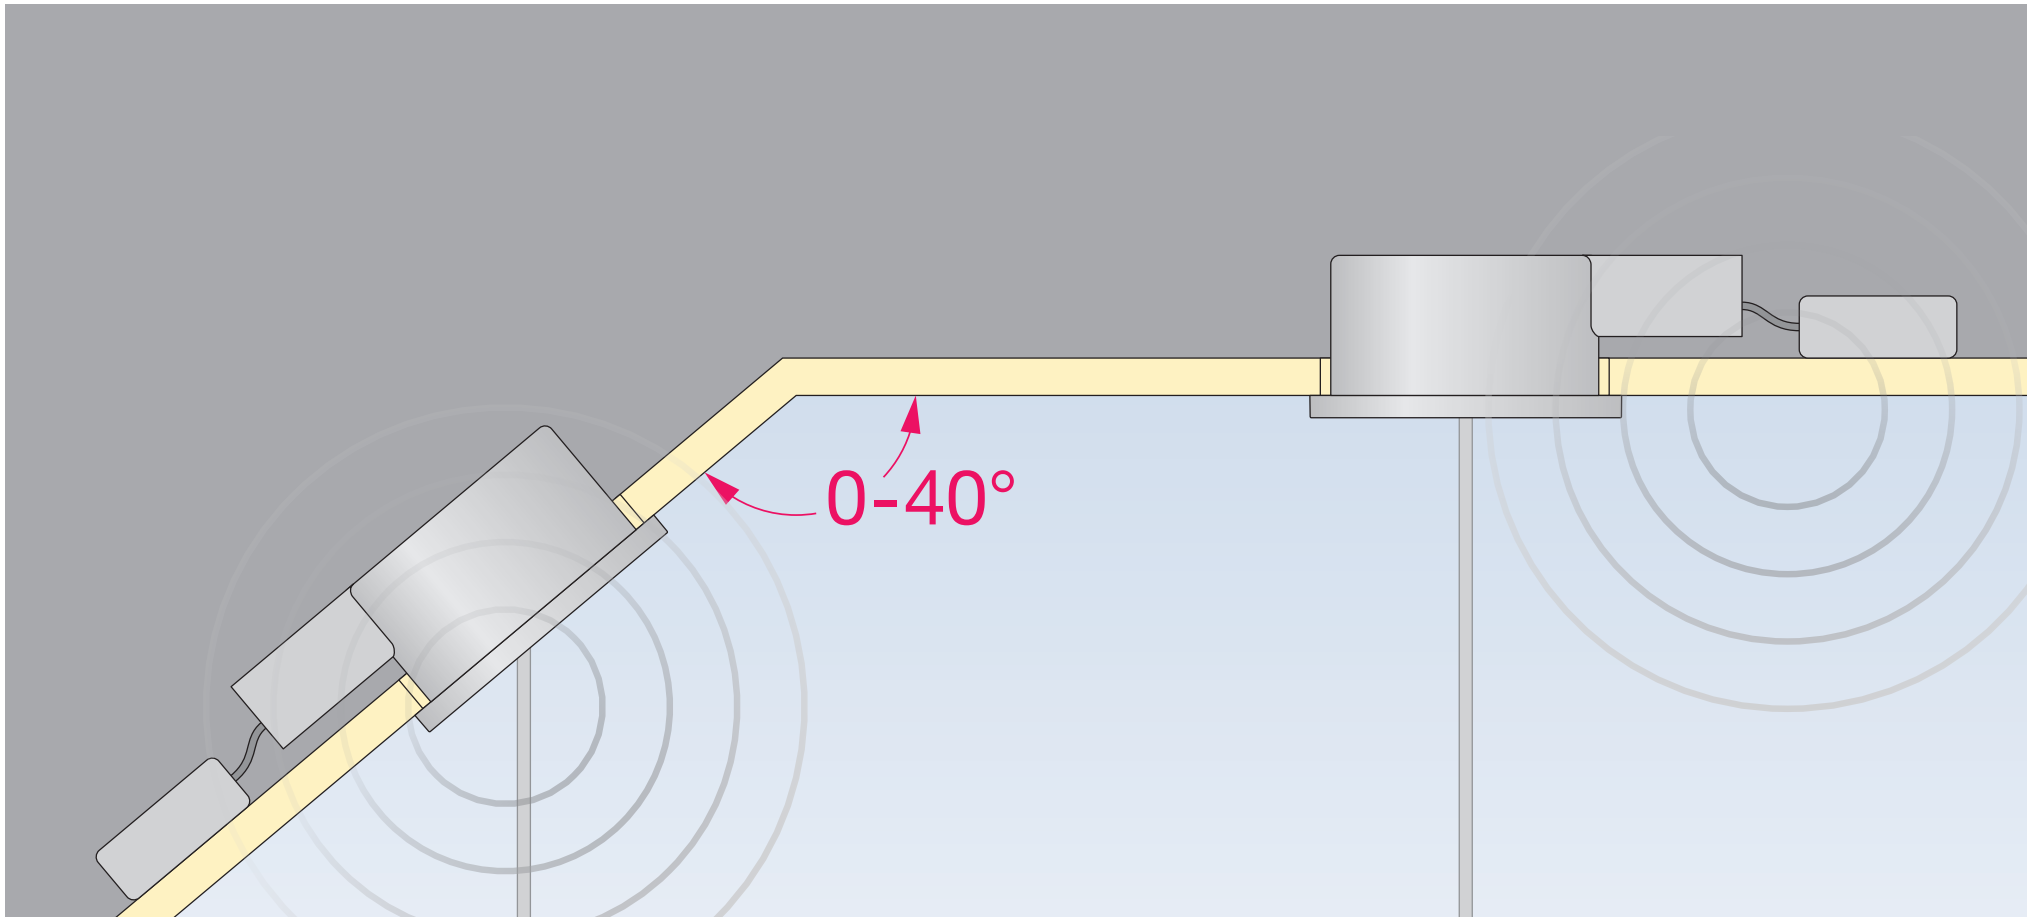

Type C

Recessed canopy

For the mounting and electrical installation of a BEGA system pendant luminaire on straight or sloped suspended ceilings. Suitable for sloping ceilings with an inclination of 0–40°.

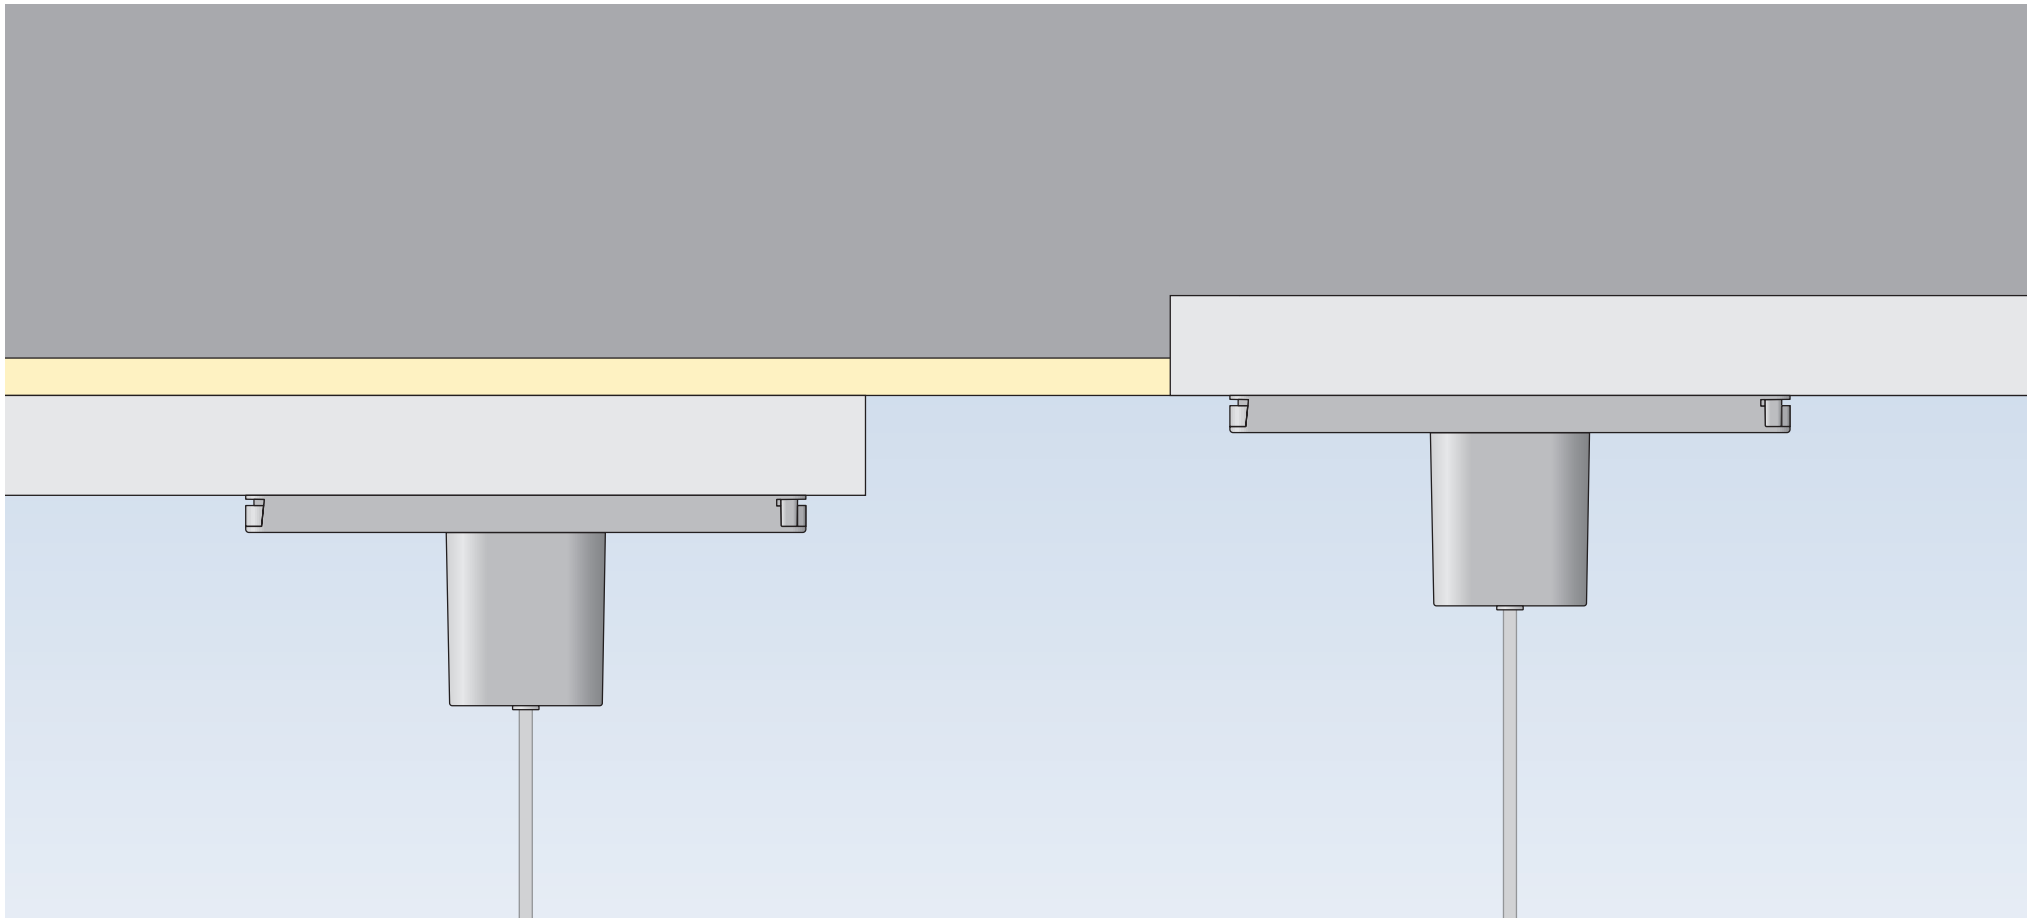

Type CS

Recessed canopy · Smart

Identical in construction to type C, but with built-in Smart Controller for wireless control of the luminaire using BEGA Smart.

Type D

Track adapter

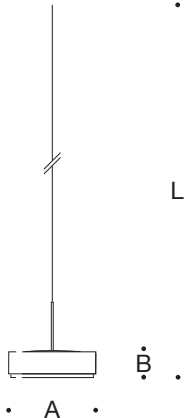

For the integration of BEGA system pendant luminaires in surface-mounted and recessed EUROSTANDARD-PLUS® track systems.

BEGA system pendant luminaires

Additional light emission upwards

- Metal housing and rod suspension available with a choice of 3 finishes
- Installation components available with a choice of 2 finishes
- DUOLOGIC opal glass
- Luminaires with on/off PSU or DALI controllable PSU
- Colour rendering index (CRI) > 90
